

WOMEN COUNSELING WOMEN

BY DEBI PRYDE

Women Counseling Women is a special course designed for women in leadership positions who are facing difficult questions and counseling opportunities. Those involved in teaching ministries such as mothers, school teachers, deacon's wives, Sunday School teachers, or pastor's wives will greatly benefit from the seminars.

DEBI PRYDE

For the past thirty years, she has immersed herself in ministry through Sunday School, soul-winning, discipleship, visitation, and counseling. Through those years, she started speaking at seminars and colleges to encourage fellow Christians in the ministry. She is a certified biblical counselor and has authored numerous books and resources. Her greatest burden is to address the problems Christian women face today and her greatest love is to minister to women who have a heart for their friends, families, and children.

COST

Basics: \$199 | Specifics: \$199

Price includes notebook.

Pastors' wives receive \$20 off for every lady from her church who attends.

RESOURCES

Debi has written a number of helpful books. These will be available for purchase during the event.

Audio recordings of the session will be available to purchase at the end of the event for \$20.

SPRING BASICS

The Basics is taught each spring and is a seminar that teaches the basics of biblical counseling and is required before attending any of the advanced Specific Seminars. Each participant will be challenged to understand the biblical basis for women counseling women, the authority and sufficiency of Scripture, the underlying causes of behavior, the steps of helping women who are engaged in sinful life patterns, and the process of real and lasting change.

FALL SPECIFICS

The Specifics is taught each fall and is an advanced Seminar designed to address specific problems that are prevalent among women in our churches today. The Specific Seminar is a four-year curriculum. Debi Pryde will take the Scriptures and show how to find help with these specific problems. Some areas discussed include: eating disorders, rebellious children, step-parenting, depression, and chronic bitterness.
