HOMELAND 1 WEEK MEDICAL MISSIONS TRIP

A MINISTRY OF CARE, COMPASSION AND LEADERSHIP

MAKE AN IMPACT IN THE SUMMER OF 2027

1 Your Role

As the Health Center Team Lead (Health Officer), you will oversee the day-to-day operation of the Health Center during your assigned camp week. You will lead and support the Health Tech team while helping ensure that campers, sponsors, and staff receive appropriate, timely, and compassionate care.

2 Qualifications

21+ year olds with experience in a health care setting and who are one of the following: Licensed physician (MD/DO), physician assistant, nurse practitioner, registered nurse, or licensed practical nurse. Licensed emergency medical technician or licensed medical first responder. Wilderness First Responder certified or qualifying equivalent training.

3 Serving Others

As Health Center Team Lead (Health Officer), you have the opportunity to use your medical training, experience, and gifts to serve the Lord in a unique and meaningful setting. From a scraped knee or homesickness to medication management or an unexpected emergency, your presence can bring reassurance, wisdom, and compassionate care when it is needed most.

About

Every summer, hundreds of campers and staff come to Camp CoBeAc to grow in their walk with the Lord. Behind the scenes, our Health Center team helps make that experience possible by caring for the physical needs of our camp community.

At CoBeAc, health care is more than treating an injury or illness. It is an opportunity to model Christlikeness, listen well, encourage a worried camper, reassure a concerned parent, and demonstrate the love of Christ through your words and actions

If you have the qualifications, a heart to serve, and a desire to use your abilities for the Lord, we would love to talk with you about this opportunity. “As every man hath received the gift, even so minister the same one to another, as good stewards of the manifold grace of God.” — 1 Peter 4:10

Would you consider serving?

CoBeAc Camp & Retreat Center

SUMMER OF 2027
WEEKS AVAILABLE:

- WEEK 1: JUNE 14-18
- WEEK 2: JUNE 21-25
- WEEK 3: JULY 5-9
- WEEK 4: JULY 12-16
- WEEK 5: JULY 19-23
- WEEK 6: JULY 26-30

What to Expect

Our camp week runs from Monday afternoon through Friday at noon. The Health Center is available 24 hours a day during the camp session, and the Health Services Officer must be available for health-related needs throughout the week. Medication distribution, registration-day health screening, routine patient care, documentation, team coordination, and occasional urgent situations are all part of the role.

A separate Health Center Team Lead Guide will provide the practical details, including schedules, database instructions, procedures, and day-to-day responsibilities.

After contacting us with interest and securing a week, we will have you fill out the summer staff paperwork as this is part of what licensing requires for all our staff with direct access to campers. We'll have private accomodations for you near the Health Center.

When to let us know that you are considering?

The sooner the better! We are working hard to secure this vital position for each week of summer camp. If you can let us know what week may be able to work for you it will help as we are trying to cover these very important logistics.
